FEDERAL REPUBLIC OF NIGERIA

<u>Application Form for General Release/Commercialization of</u> Genetically Modified Organisms (GMOs) in Nigeria

NBMA Form C Ref. No: NBMA/CM/

This form should be forwarded to the **Director General/Chief Executive Officer**, **National Biosafety Management Agency**, **National Parks Service**, **Umaru Musa Yar'ardua expressway**, **Airport Road-Abuja**, on completion.

1. Administrative information

Purpose of Application:

[Application for General Release/Commercialization of Genetically Modified Crop (name of Crop species and introduced trait)

Previous Applications or Approvals:

[Information on the status of this crop and trait, including pending, approved, or denied applications for field trials and commercial releases here or in other jurisdictions. Indicate also if this is a new application or a renewal.]

Applicant:
[Name of applying institution/Organization, which may also include the name of the key personnel.]
Institutional Address:
Telephone (s):
E-Mail:
Contact Details of Key Person:
Name of Key Person:
Designation of Key Person:
Address:
Telephone (s):
E- mail:
Website (if available):
ΡΔRT Ι

BRIEF DESCRIPTION OF THE GENETICALLY MODIFIED PLANT 1.

Include specific and common names of the plant, the country of origin of the plant and a description of the genetically modified trait.

- 2. **GENERAL RELEASE**
 - 2.1 Detail specific instructions for the storage and handling of the plant, or viable plant parts
 - 2.2 When will the general release be implemented?

- 2.3 Where will general release take place?
- 2.4 Detail the type of environment and the geographical areas for which the plant is suited.
- 2.5 Who will undertake the general release?
- 2.6 Estimate the amount of production of the genetically modified crop within Nigeria per annum or to be imported into Nigeria per annum.

3. DESCRIPTION OF ANY PRODUCT DERIVED FROM THE PLANT

- 3.1 identify the part of the plant to be used for the product, the type of product, and the use of the product, the market sector in which the product will be marketed and the trade name of the product.
- 3.2 Specify the exact conditions of use of the product.
- 3.3 Provide information on the proposed labeling of the product for marketing
- 3.4 State whether the benefits of the products are available in any other non-genetically modified form. If so, state why the genetically modified form should be approved for general release when other, non-modified products are available.
- 3.5 Detail specific instructions for the storage and handling of viable plant products that will avoid misuse or escape of the genetically modified plant into an environment for which it was not intended.
- 3.6 Detail the likelihood of the genetically modified plant or its products being exported from Nigeria, particularly if such export could result in the introduction of the plant into its centre of origin.

4. BRIEF SUMMARY OF FIELD TRIALS UNDERTAKEN

- 4.1 Submit a list of previously authorized activities with the GMO in
 - (a) Nigeria
 - (b) other countries

- 4.2 Include information on the country, year, location and the authority form which permission was obtained to run the field trials.
- 4.3 Provide full date on the field performance of the genetically modified plant, including the efficacy of the introduced trait

5. POLLEN SPREAD

- 5.1 identify all methods of pollination applicable to the plant
- 5.2 Identify pollinating agents and the distances to which pollen is known to spread.
- 5.3 identify any plants in the area of general release that may become cross-pollinated with the genetically modified pollen.
- 5.4 Describe methods to be used to prevent the spread of genetically modified pollen to wild type plants

6. SEED DISPERSAL

- 6.1 If seed is to be sold, state whether the seed is hybrid
- 6.2 Describe methods to be used to limit the dispersal of genetically modified seed into the environment
- 6.3 If seed dispersal will occur describe what volumes of seed are likely to be dispersed, how this seed will interact in the environment and what long term effects the seed is likely to have on the environment.

7 VEGETATIVE SPREAD OF THE GENETICALLY MODIFIED PLANTS

- 7.1 Describe methods of vegetative reproduction that are available to the plant
- 7.2 Describe methods to be used to limit vegetative spread of the genetically modified plant into the environment

8. FOREIGN GENES AND GENE PRODUCTS

- 8.1 Identify all foreign genes in the genetically modified plant
- 8.2 Describe the gene products that are derived from the foreign genes

- 8.3 Describe the biological activity associated with the foreign gene products
- 8.4 Provide information on the rate and level of expression of the foreign genes and the sensitivity of the measurement of the rate and level. State whether expression is constitutive or inducible. Are foreign genes expressed throughout the plant or only in certain organs or tissues?
- 8.5 Provide protocols for the detection of the foreign genes in the environment including sensitivity, reliability and specificity of the techniques

9. RESISTANCE

- P.1 Detail whether the genetically engineered plant is able to initiate resistance, in any biotic components of the environment, to any biologically active foreign gene product.
- 9.2 Detail what methods are available to minimize the risk of resistance developing in the environment
- 9.3 Detail how resistance will be managed during general release of the genetically modified plant

10. HUMAN AND ANIMAL HEALTH

- 10.1 State whether the genetically modified plant or its products will enter human or animal food chains.
- 10.2 Detail the results of experiments undertaken to determine the toxicity of the foreign gene products (including market genes) to humans and animals
- 10.3 If the foreign gene products are toxic or allergenic in any way, detail how the general release will be managed to prevent contact with animals or humans that will lead to discomfort or toxicity. (Attach food safety and allergenicity text report)

- 10.4 What are the implication of the proposed activity with regard to the health and safety of the workers, cleaning personnel and any other person, that will be directly or indirectly involved in the activity?
- 10.5 Further to the question raised above, indicate the proposed health and safety measures that would be applied to safeguard employees during the proposed activity

11. ENVIRONMENTAL IMPACT AND PROTECTION

- 11.1 Detail any long-term effect the general release of the genetically modified plant is likely to have on the biotic and abiotic components of the environment
- 11.2 Provide data and information on ecosystems that could be affected by use of the plant or its products
- 11.3 Specify what effect the general release of the genetically modified plant will have on biodiversity
- 11.4 Specify the measures to be taken in the event of the plant or product being misused or escaping into an environment for which it is not intended
- 11.5 If the foreign genes give rise to crops resistant to agrochemicals, provide information on the registration of the agrochemicals to be used on the crop.

12. SOCIO-ECONOMIC IMPACTS

Specify what, if any, positive or negative socio-economic impacts that genetically modified plant will have on communities in the proposed region of release.

13. MONITORING AND ACCIDENTS

- 13.1 indicate the methods and plans for monitoring of the GMO
- 13.2 Indicate any contingency measures that will be applied in the event of an accident

14. PATHOGENIC AND ECOLOGICAL IMPACTS

14.1 Submit an evaluation of the foreseeable impacts, in particular any pathogenic and ecologically disruptive impacts

15. WASTE DISPOSAL

Where only a portion of the genetically modified plant will be used for the product, how will the unused plant parts be disposed of?

16. RISK MANAGEMENT

- 16.1 Please indicate any risk management measures that would be required during the trial
- 17. COMPLETE THE AFFIDAVIT. The affidavit is an inseparable part of the application form.

Directions for the applicant:

(This page must be excluded from the documents submitted to the Director General/CEO's office)

- Please complete all relevant sections of the questionnaire CLEARLY.
- Please provide 5 copies of the application with confidential information.
- Please provide an additional hard copy of the application containing no confidential information. The latter application will be made available for public scrutiny
- Please provide electronic and hard copy of a risk assessment conducted in accordance with Annex III of the Cartagena Protocol on Biosafety and in the format prescribed below,
- Please submit all relevant documentation to the Director General/Chief Executive Officer at the address indicated in the application form
- Prescribed fee should be paid into the Agency's Bank account after the application has been acknowledged.

18. Declaration

It is hereby certified that the information in the application and all attachments are complete and accurate to the best of my knowledge and belief:
Name and signature of the Head of Institution/Organization:
Date:
Name and signature of Principal Investigator for Applying Institution:
Date:
Name and signature of Lead Scientist of Collaborating Institution (if applicable):
Date:

COMMON FORMAT FOR RISK ASSESSMENT

(In accordance with Annex III of the Cartagena Protocol on Biosafety)

	Risk Assessment Details	
1.	Country of taking Decision	Nigeria
2.	Title:	<text entry=""></text>
3.	Contact details	Standard Contact address details: name, function (job title/designation), organization, address, phone, fax, emain, website
4.	Name and identification of the living modified organism	<text entry=""></text>

	modified organism:	·
6.	Transformation event:	<text entry=""></text>
7.	Introduced or Modified traits:	Choose the trait from the following list: A. Abiotic Environmental tolerance Altered photoperiod sensitivity Cold or heat tolerance Drought or water tolerance Other abiotic environmental tolerance B. Altered Growth, Development and product quality Altered ripening or flowering Coloration Fertility Growth rate or yield Male sterility Nutritional composition (inc.allergenicity Other growth, development and product quality Selected marker genes and reporter gens Uptake or degradation of environment pollutants Chemical Tolerance Herbicide tolerance Herbicide tolerance Other chemical tolerance Medical Products Animal vaccines Development of transplant organs Other medical products Production of pharmaceuticals Pest Resistance Bacterial resistance Fungus resistance Insect resistance Nematode resistance Virus resistance Virus resistance and < text entry for other, not on the list>
8.	Techniques used for modification:	<controlled common<br="" for="" vocabulary="">techniques – please select techniques used for the transformation: plasmid</controlled>

		biolistic methods, breeding, electric shock (poration), asmotic shock> and <text entry="" for="" list="" not="" on="" other,="" the="" –=""></text>
9.	Description of gene modification:	<text entry=""></text>
	Description of gene modification.	Characteristics of modification
10.	Vector characteristics (Annex III.9(c)):	<text and="" any,="" characteristics="" entry="" host="" identity,="" if="" include="" its="" of="" or="" origin,="" range<="" should="" sources="" th="" the="" vector,="" –=""></text>
11.	Insert or inserts (Annex III.9(d)):	<text -="" characteristics="" entry="" genetic="" of<br="">the inserted nucleic acid and the function it specifies, and/or characteristics of the modification introduced></text>
		Recipient organisms or parental organisms (Annex III.9(a)):
12.	Taxonomic name/status or recipient organisms or parental organisms:	<pre><controlled agreed="" international="" standards="" vocabulary:=""> and <text entry=""> - for other, not on the list</text></controlled></pre>
13.	Common name of recipient organism or parental organisms	<controlled thesaurus="" vocabulary="" with=""> and <text entry="" for="" not="" on="" other="" the<br="" –="">list></text></controlled>
14.	Point of collection or acquisition of recipient or parental organisms:	<text entry=""></text>
15.	Characteristics of recipient organism or parental organisms:	<text entry=""></text>
16.	Centre(s) of origin of recipient organism or parental organisms	<text and="" coordinates="" describe="" entry="" exact="" geographical="" give="" location="" the="" –=""></text>
17.	Centres of genetic diversity, if known of recipient organism or parental organism may persist or proliferate	<text and="" coordinates="" describe="" entry="" exact="" geographical="" location="" the="" –=""></text>
18.	Habitats where the recipient organism or parental organisms may persist of proliferate:	<text description="" entry="" habitat="" may="" of="" or="" organism="" persist="" proliferate="" the="" where="" –=""></text>
	Donor organism or organism (Annex III.9(B)):	
19.	Taxonomic name/status of donor organism(s)	<controlled agreed="" international="" standards="" vocabulary:=""> and <text entry="" for="" list="" not="" on="" other,="" the=""></text></controlled>
20.	Common name of donor organism(s):	<pre><controlled thesaurus="" vocabulary="" with=""> and <text entry="" for="" list="" not="" on="" other,="" the=""></text></controlled></pre>
21.	Point of collection or acquisition of donor organism(s):	<text and="" coordinates="" entry="" exact="" geographical="" location="" the="" –=""></text>
22.	Characteristics of donor organism(s) related to biosafety:	<text biological="" characteristics="" donor="" entry="" of="" organisms="" relevant="" –=""></text>

	Intended use and receiving environment	
23.	Intended use of the LMO (Annex III 9(g)):	<text changed="" compared="" entry="" including="" information="" intended="" living="" modified="" new="" of="" or="" organism="" organism,="" organisms="" parental="" recipient="" relating="" the="" to="" use="" —=""></text>
24.	Receiving environment (annex III.9(h)):	<text and="" biological="" centres="" characteristics,="" climatic="" diversity="" ecological="" entry="" environment="" geographical,="" including="" information="" likely="" location,="" of="" on="" origin="" potential="" receiving="" relevant="" the="" –=""></text>
	Risk Assessment Summary	
25.	Detection/identification method of the LMO (annex III.9(f)):	<text and="" detection="" entry="" identification="" methods="" reliability="" sensitivity="" specificity,="" suggested="" their="" –=""></text>
26.	Evaluation of the consequences (Annex III.8(b)	<text account="" adverse="" an="" and="" being="" effects="" entry="" environment="" evaluation="" exposure="" into="" kind="" level="" likelihood="" likely="" living="" modified="" of="" organism="" potential="" realized,="" receiving="" taking="" the="" these="" to="" –=""></text>
27.	Evaluation of the consequences (Annex III.8(c)):	Text entry – An evaluation of the consequences should these adverse effects be realized>
28.	Overall risk (annex III.8(d))	<text adverse="" an="" and="" based="" being="" by="" consequences="" effects="" entry="" estimation="" evaluation="" identified="" likelihood="" living="" modified="" of="" on="" organism="" overall="" posed="" realized="" risk="" the="" –=""></text>
29.	Recommendation (Annex III.8(e)):	<text a="" as="" entry="" recommendation="" to<br="" –="">whether or not the risks are acceptable or manageable, including, where necessary identification of strategies to manage these risks></text>
30.	Actions to address uncertainty regarding the level of risk (annex III.8(f)):	<text about="" and="" any="" as="" been="" details="" entry="" environment="" further="" has="" in="" information="" is="" level="" lmo="" management="" monitoring="" of="" on="" or="" receiving="" regarding="" requested="" risk="" strategies="" that="" the="" there="" uncertainty="" well="" where="" —=""></text>
31.	Availability of detailed risk assessment information:	<text entry="" indicate="" please="" whether<br="" –="">more details on the irks assessment are available and how they can be accessed></text>

32.	Any other relevant information:	<text any="" application="" assessment.="" but="" e.g.="" entry="" form="" in="" included="" information="" is="" nature="" non-cbi="" not="" of="" original="" other="" relevant="" risk="" that="" the="" this="" to="" was="" —=""></text>
33.	Attach document:	Not applicable to applicant <specific a="" and<="" choose="" entry:="" file="" form="" local="" of="" option="" source="" th="" the="" to="" types=""></specific>
34.	Notes:	'upload' a copy of the BCH server> <text only=""></text>
